### Who is the MTDL for?

The MTDL is designed by teachers for teachers. It's for all those times you're in desperate need of a key signature worksheet, or seeking a sequential way to teach semiquavers, or a last-minute fun activity to finish off your Friday afternoon.

Kodály or Kodály-inspired educators will find a treasure trove of outlined strategies and all your materials ready to prepare, present and practice, but don't worry – you don't need to be a Kodály educator to get the most out of this resource collection and lesson planning hub.

### What student level does the MTDL cater to?

At the moment it is heavily skewed towards DSMusic Level 1 - so upper primary/lower secondary students and classes but eventually it will be for all upper primary and secondary teachers.

### How does the MTDL link with other DSMusic resources?

The MTDL directly links to the current edition of the DSMusic [Level 1 Musicianship & Aural Training](#) books with new student workbook editions coming soon!

### How often are new resources added?

There is new material being added to the MTDL all the time, with subscribers receiving regular updates via email about these. The MTDL is also responsive to your requests so if something you need is missing - let us know and we'll create it for you!
